Dear Mr. Weisberg:

The Altgens picture published in Whitewash 2 is dynamite. As you state, Lovelady & the FBI to the Contrary, the man standing in the doorway has got to be Oswald. The incredible thing to me is that with such photographic evidence, the message is not getting thru to the Public. Cronkrite just yesterday said Oswald is unquestionably the assassin. He referred to author Critics to the contrary as Kooks and Cranks. Could it be possible to identify the man, to the right of Oswald, shading his eyes and the man sitting on the steps in front of him, definitely? If this showed the sitting man to be wearing a strip shirt it would definitely have to be Lovelady. This is so very important to prove.

Then a copy of the Altgens picture, (with a copy of the Lovelady pictures and the striped shirt, and a copy of Oswald in the dark shirt he was arrested in), should be mailed to every Congressman and senator in Washington with an accompaning explanation of the pictures. this would force Congress to break it long silence for it would forced them to at least look at the pictures and they could no longer assert that they were relying on the Warren report and were unaware of the import of the Altgens picture.

I have asked WCAU, if at all possible to arrange a confrontation some evening soon between yourself and Arlan Specter where he will have to come to grips with the Altgens picture at least.

your are doing a job that all of us should be doing but which We are unable to do. for this reason I am sending you $25.00 to help cover your expenses. I am also sending an additional $5.00 for Whitewash 3. total $30.00 Please Cash the Check and use the money.

I was intrigued by one sentence in Whitewash (2)

(over)

on page 8 you state "when the entire truth is out - - - - - the shock will be beyond Conception". Could you tell me what you mean by this? If you do not feel safe in expressing Conjecture, would you at least write or tell me what the rumors are that are causing such a stir in Europe? Jack McKeena said the Rumors makes your blood run Cold. Penn Jones states in the foreward to his book, "the truth might damage the world"; I have my own Conjectures and they go high up in Congress, the national security Council, all the military departments and all the investigative agencies. Your books points a ~~finger at~~ finger at the investigative agencies and the behavior of life mogagine in publishing the oswald gun picture and the Conspiracy of silence of the press and Radio and T.V. makes me wonder at their Connivance. But "the truth that might damage the world" and the "shock beyond Conception", are far beyond anything I can conjecture.

Keep up the good work. It was a providential stroke of luck that kept the Altgens picture from being destroyed. I would call it "a refutation, in one picture, of the 24 volumnes of the Warren report."
